Port of Labuan

1. Location and Layout	The natural deepwater port of Labuan is located on the Island of Labuan, in the Federal Territory of Labuan which is about 10 km from mainland Sabah. The Port is located off Northwest coast of Borneo at Latitude 05° 16' 4" North and Longitude 115° 14' 65" East. It was proclaimed as an International Offshore Financial Centre (IOFC) in 1990 and is a tax free port. Labuan's strategic proximity to major shipping routes and offshore oil and gas fields is being promoted. Today, Labuan is a thriving free port, offshore oil and gas industry base, tourist destination, and a leading international offshore financial centre. Labuan port has a natural deep harbor with easy access to the major shipping channels in the South China Sea. It lies at the entrance to Brunei Bay. The Port used to a safe haven for laid up VLCC's at one time with good anchorage for large vessels with depths of 5.75 fathoms.					
2. City Hinterland	The Labuan Corporation is the sole local authority in the area. The Port serves the hinterland of the Beaufort, Papar and Sipitang Districts. Labuan is also the sole Federal Territory in East Malaysia.					
3. Main Cargo	The main cargo handled at the port are dry bulk and general cargo. There are ferry services between Labuan and mainland Sabah and between Labuan and Muara Brunei.

Port of Sandakan

1. Location and Layout	Sandakan Port is located in the North East of the Sabah State (05° 48' North, 118° 04' East) facing the Sulu Sea and in the western part of Sandakan City. It is the second largest port in Sabah, main port for the North Eastern region and is the primary sea link for the Division (District) of Sandakan. The port currently acts as the primary transportation hub for North Eastern Sabah. There was ferry services between Sandakan and some parts in the Southern Philippines such as Zamboanga City, Sulu Archipelago and Tawi-Tawi but these services have been terminated due to a deterioration in the current security situation.									
2. City Hinterland										
3. Main Cargo	The main exports are palm oil, palm oil related products, other agricultural products such as cocoa and coffee and plywood. The main import is petroleum products.									
4. Facilities	<table><tr><td>Number of berth</td><td>3 main berth & 3 oil jetties</td></tr><tr><td>Major Berth</td><td>4</td></tr><tr><td>Container Handling Capacities</td><td>30,000 DWT</td></tr><tr><td>Tugs Available</td><td>Yes</td></tr></table>		Number of berth	3 main berth & 3 oil jetties	Major Berth	4	Container Handling Capacities	30,000 DWT	Tugs Available	Yes
